

I'm very disturbed to hear that you might take K-Love off the FM air because you are considering changing from the FM translator that K-Love uses to the LPFM service. K-Love means a lot to the communities it serves - not only in wonderful, uplifting Christian music, but also by the services they do for people. It is a wonderful witnessing tool - by the music and the wonderful announcers who really care about their listeners. They also have 24 hour help with anyone who needs to call about questions of any type - 5 full time pastors available 24 hours a day. They pray for the prayer requests they receive at least 5 times a day. You can't beat that with any other radio station. Our local community would hurt badly if K-Love was taken off the airwaves. There could be no better station that you could replace K-Love with on your new LPFM broadcaster that would not be providing us with encouraging Christian music. It would be a tragedy to remove K-Love. I personally need the inspiration I receive daily from K-Love, and I know my community feels the same way. The public needs K-Love to stay on the air so that we can be encouraged daily. Please don't consider removing K-Love from our FM translator in the Midland/Odessa/Big Spring area. Thank you for your consideration in this pressing matter.
